Greenlee Develops Trailer Hitch Adapter for UT2 Cable Puller

ROCKFORD, Ill. March 16, 2007 — Greenlee, a Textron company (NYSE: TXT), today announced the development of a trailer hitch adapter designed specifically as an accessory for use with their UT2 cable puller.

“This new trailer hitch adapter permits end-users to use a truck as the base for the UT2 for pulling cable,” said Jim Eisele, product manager.

The trailer hitch adapter attaches to the UT2 main assembly and fits into the receiver of standard 2-inch trailer hitches. It swivels so that it can perform pulls vertically, horizontally, or at any angle in between. It also features a right-angle sheave to keep the operator out of the direct pulling path.

For more information on the new trailer hitch adapter, the UT2 cable pullers, or other products from Greenlee, a Textron company, call 1-800-435-0786 or visit www.greenlee.com.

Greenlee is known as a global leader in the professional tool category.
